Congratulations!!! He asked and you said YES! Now all the fun begins. After deciding on the date and location, then there is the photographer - The one person who will capture this day for you to cherish forever. Anyone can take a picture, but a true professional will know how to take that picture so you look your best and most beautiful.

As a photographer, I not only do your wedding photographs - I make sure that the day goes as you would like it to. I help to guide you through the day so things go smoothly. Starting from the time I arrive till I leave, I will assist you in any way I can. From taking the photos to delivering flowers, giving someone a ride to the church, to providing bobby pins and safety pins as needed, I will do it. Just ask.....

I won't put time limits on you - if you have hired me, then you will have me as long as it takes to get the job done. You will have enough to worry about. You don't need a photographer telling you what to do, and leaving in the middle of the formals because their time has run out and you're negotiating the overtime cost. That won't happen with me.

All my wedding packages include pre-wedding day consultation, 150 paper proofs, color and b/w photographs, high resolution CD with all images, copyright release for the photographs, and as much time as is needed on the day of the wedding.
